

The FrontPage 2003 Screen

Views

To Display a View: Select **View** from the menu bar and select a view from the menu.

Page: Shows current Web page in different views: Design, Split, Code, and Preview.

Folders: Shows the site's files and folders.

Remote Web Site: Allows you to analyze and view the status of elements in the Web site.

Reports: Allows you to analyze and view the status of elements in the Web site.

Navigation: Shows the structure and organization of the Web site.

Hyperlinks: Shows the hyperlinks to and from each page in the Web site.

Tasks: Keeps track of tasks that need to be completed in the Web site.

The Fundamentals

The Standard Toolbar

- To Create a New Normal Page:** Click the **Create a new normal page button** on the Standard toolbar. Or, select **File** → **New** and click **Blank page** in the task pane.
- To Create a New Web Site:** Click the **New button list arrow** on the Standard toolbar and select **Web Site**, or select **File** → **New** and click **One page Web site** in the task pane.
- To Open a Page:** Click the **Open button**, or select **File** → **Open** from the menu.
- To Open a Web Site:** Click the **Open button list arrow** and select **Open Site**. Or, select **File** → **Open Site** from the menu.
- To Preview a Web Page in a Browser:** Click the **Preview in Browser button** on the Standard toolbar, or select **File** → **Preview in Browser** from the menu.
- To Get Help:** Press **<F1>**, or click the **Help button** to open FrontPage Help.
- To Copy Formatting with the Format Painter:** Select the text with the formatting you want to copy. Click the **Format Painter button** and drag the Format Painter across the text to which you want to apply the formatting.
- To Insert an Image:** Click the **Insert Picture From File button** on the Standard toolbar, or select **Insert** → **Picture** → **From File** from the menu.
- To Insert a Table:** Click the **Insert Table button** on the Standard toolbar or select **Table** → **Insert** → **Table** from the menu.
- To Insert a Hyperlink:** Select the text and click the **Insert Hyperlink button** on the Standard toolbar or press **<Ctrl> + <K>**.
- To Cut or Copy:** Select the text and click the **Cut button** or **Copy button** on the Standard toolbar, or press **<Ctrl> + <X>** (cut) or **<Ctrl> + <C>** (copy).
- To Paste:** Click the **Paste button** on the Standard toolbar, or press **<Ctrl> + <V>**.
- To Undo:** Click the **Undo button** on the Standard toolbar, or press **<Ctrl> + <Z>**.
- To Save a Web Page:** Click the **Save button** on the Standard toolbar, or select **File** → **Save** from the menu, or press **<Ctrl> + <S>**.
- To View the Folder List or Navigation Pane:** Click the **Toggle Pane button list arrow** on the Standard toolbar.

Formatting

The Formatting Toolbar

- **To Format Text:** Change the style of text by clicking the **B Bold button**, **I Italic button**, or **U Underline button** on the Formatting toolbar.
Change the font type by selecting a font from the **Times New Roman Font list**. Change the font size by selecting the pt. size from the **12 Font Size list** or by using the **A Increase** **A Decrease Font Size buttons**.
- **To Change Paragraph Alignment:** Select the text and click the appropriate alignment button (**Left**, **Center**, **Right** or **Justify**).
- **To Indent a Paragraph:** Click the **Increase Indent button**.
- **To Decrease an Indent:** Click the **Decrease Indent button**.
- **To Create a Bulleted or Numbered List:** Select the text you want bulleted or numbered and click the **Bullets button** or the **Numbering button**.
- **To Change Table Borders:** Click the **Table Border button** to apply the border format shown on the button, or click the **Table Border list arrow** to select a different type of border.
- **To Change Paragraph Line Spacing:** Select **Format** → **Paragraph** from the menu, click the **Line Spacing list arrow**, and select the spacing option.
- **To Insert a Line Break:** Place the insertion point where you want to insert the page break and press **<Shift> + <Enter>**.
- **To Apply a Theme to a Web site:** Select **Format** → **Themes** from the menu, select a theme, and click **OK**.

Tables

The Tables Toolbar

- **To Create a Table:** Click the **Insert Table button** on the Standard toolbar and select the number of columns and rows from the grid.
- **To Navigate in the Table:** Press the **<Tab>** key to go to the next cell in the table. Press the **<Shift> + <Tab>** to go to the previous cell in the table.
- **To Delete a Column or Row:** Right-click the selected column or row and **Delete Column** or **Row** from the shortcut menu, or select **Table** → **Delete Column** or **Row** from the menu.
- **To Insert a Column or Row:** Right-click the table and select **Insert Columns** or **Insert Rows** from the shortcut menu, or select **Table** → **Insert** → **Rows** or **Columns** from the menu.
- **To Change Cell Vertical Alignment:** Place the insertion point in the cell and click the **Align Top**, **Center Vertically**, or **Align Bottom button**.
- **To Fit to Column Contents:** Place your insertion point in the column you want to fit and click the **AutoFit to Contents button**.
- **To Adjust Cell Padding or Cell Spacing:** Right-click anywhere in the table and select **Table Properties**, or select **Table** → **Properties** → **Table** from the menu. Then adjust the cell padding or spacing in pixels.
- **To Change Table Border Width:** Right-click the table and select **Table Properties**, or select **Table** → **Table Properties** → **Table** from the menu. Then change the width of the table's borders in pixels. Enter zero pixels for an invisible border.
- **Display in Pixels or Percent:** Right-click the table and select **Table Properties** or select **Table** → **Table Properties** → **Table** from the menu. A table displayed in pixels will appear the same size, regardless of the monitor size on which it is viewed. A table displayed in percent will adjust to a percent of the monitor on which it is viewed.
- **Using Layout Tools:** Use the layout tools to design your page's layout table with precise dimensions. Use the **Draw Layout Table button** to draw the table to an exact height and width. Use the **Draw Layout Cells button** to fill in the cells of the layout table.

Pictures

The Pictures Toolbar

- **To Insert an Image:** Click the **Insert Picture From File button**, or select **Insert** → **Picture** → **From File** from the menu.
- **To Add a Hyperlink to an Image:** Select the image and click the **Insert Hyperlink button** on the Standard toolbar, or select **Insert** → **Hyperlink** from the menu.
- **To Create a Thumbnail Image:** Select the image, and click the **Auto Thumbnail button** on the Pictures toolbar.
- **To Create an Image Map:** Click the **Rectangular**, **Circular**, or **Polygonal Hotspot button**, draw the hotspot shape over the image, then verify the hyperlink's location.
- **To Highlight Hotspots:** Click the **Highlight Hotspots button**.
- **To Crop an Image:** Click the **Crop button** on the Pictures toolbar, and drag the cursor over the part of the image you want to keep.
- **To Resize an Image:** Click and drag its resizing handle in the direction you want to resize the picture.
